Speedwell  
Spiderwort  
Spurge  
St Johns Wort  
Sundrops/primrose  
Swamp Milkweed  
Sweet Woodruff  
Tall Speedwell  
Threadleaf Coreopsis  
Thyme  
Toadflax  
Viola  
Virginia Bluebell  
Willow Amsonia  
Wood Poppies  
Wormwood  
Yarrow  
Yellow Archangel  
Yellow Waxbells

Under extreme circumstance deer will eat just about any plant, but with planning and use of plants that they prefer to avoid you can stabilize and maintain the look of your landscaping. The use of deer repellents will also help to prevent deer browsing and damage. Ask our experts what plants and replents might be best for your environment.
